

A kitchen with an astonishing view

Every plate we serve, includes a very piece of our homeland. The eastern part of Switzerland with its long tradition provides plenty of culinary specialties, which we serve to you in a tastefully and creative way. Our Kitchen is based on staple food from the region. Inspired by the "five landscapes" we try to create unique dishes for everyone's flavor and everybody's event. Our philosophy is to prepare fresh and high quality meals. That is why we work very especially close with our local butcher, bakery and cheese dairy together. All of them are placed near by us, so we can proof all the single products every day. Discover what our beautiful region can present to you.

Please have a seat, enjoy our lovely view in connection with a local deliciousness whose are all prepared with passion by our chefs.

Enjoy your meal, or as we say "en guete".
